

# LEARNING ZONE GUIDE

Content Guide		FRIDAY	SATURDAY
AN INTRODUCTION TO MUSIC THEORY	This course teaches the <b>fundamentals of Music Theory</b> using the piano to explain concepts like <b>scales, intervals, chords, and the musical alphabet</b> . Thus gaining an understanding of how notes combine to form <b>melodies</b> and <b>harmonies</b> . The course also covers music <b>notation, time signatures, and common chord progressions</b> found in popular songs. Designed for <b>beginners</b> , it builds confidence and creativity by helping learners recognise musical patterns.	2PM	2PM
BRANDING DESIGN	This creative course introduces learners to the process of <b>logo and brand identity design</b> . Focusing on combining theory with practical exercises in <b>sketching, typography, and colour</b> using only basic materials. Designed for independent in-cell study, the course develops <b>transferable skills in marketing, communication, and design</b> . Suitable for <b>all levels</b> , it provides a constructive and inspiring pathway into the creative industries	3PM	3PM
ESOL	Do you want to <b>speak English</b> confidently? It starts with more than just words. Join James for this essential TV series designed specifically for English language learners. You will master the <b>four keys to fluency: Listening, Speaking, Reading, and Writing</b> . Stop translating in your head and start understanding like a native speaker. Your journey to better English begins right here. Perfect for <b>all ESOL learners</b>	4PM	4PM
